

## Half Entertained Album

### Track 6: My Friends, My Friends

#### **CHORUS**

**My friends, my friends. (My friends, my friends.) My friends, my friends. (Just me and my friends!)  
My friends, my friends. (My friends, my friends.) My friends, my friends. (Hey!)**

When I go to school I have lots of friends. I have a good time when I play with them.  
I'll share and take turns with my friends. When we use nice words we all win.

#### **Chorus**

I listen to them, and they listen to me. When I'm feeling down, they give me a squeeze.  
I care for them, and they care for me. We're there for each other when we're in need.

#### **Chorus**

I can be myself when I'm with my friends. They like me just for who I am.  
They don't care about the clothes I wear. Find a friend and hug them like a bear.

#### **Chorus**

I'm going to hang outside with my friends. When we play on the swing, I'll push them.  
Then we'll switch and they'll push me. When we all have a turn it's as fun as it can be.

#### **Chorus**

Friends tell the truth. They don't tattle, lie or fib. Sometimes I might disagree with them.  
I won't lose my temper or get upset, and we'll still be friends when it's over with.

#### **Chorus**

Just me and my friends!
