

**Early Childhood TLC**  
**Track #2: Big Deal on My Big Wheel**

**Chorus**

**I'm a big deal. I'm a big deal. Cruising around on my big wheel. (x2)**

Safety is always a big deal when I'm cruising around on my big wheel.  
Put on my helmet to protect my head and to keep Mommy from feeling dread.  
I may wear pads on my elbows and knees. They can come in handy when I pick up speed.  
I always look up. Not down at my phone. Keep an eye out for others not alone on the road.

**Chorus**

Let's pedal down the street to the crosswalk. Stop and look both ways before we cross.  
There isn't any traffic, but don't waste time. Let's put our big wheels into overdrive.  
Pedal! Pedal! Pedal! Fast! Pedal! Pedal! Pedal! (x2)  
Now that we made it across the street. Let's take a break and bob to the beat.

**Chorus**

We're headed to my grandpa's. It's over that hill. Take your feet up off the pedals when going downhill.  
Keep them in the air, though. You can't just chill. Get your feet caught in the pedals, you might have a spill.  
"Pedal going up!" (Huh-Huh!) "Feet in the air downhill!" (Weeee!) (x2)  
Now that we made it through the hills. Jam to the beat and take a chill.

**Chorus**

I have my pedals moving fast. Nice and quick. Now let me slow it down. Just a bit.  
Gotta turn left! (Whoa!) Dodged a stick. Now back to the right onto the cement.  
Better speed it up! Here comes a dog. Big downhill he's left in the fog. (bye-bye)  
If this was a race, we would win. Oh no! A banana peel put us in a spin.  
Round we go. Then round again. You got it straightened out now. Nice job kid!  
Wait hold up! Slam on the brakes! The spot back there! (Yeah). That's his place!  
Put it in reverse use your back-up cam. (Beep. Beep. Beep.) Slam it in park. Listen to the jam.

**Chorus**

*What do you think you're doing driving that thing all the way over here by yourself again? You wait til your momma hears about that. You are going to be grounded. For a long time!*
